

### PARTS AND MATERIALS SELECTION GUIDE

Endura part numbers are composed of a 4-digit part designation followed by a 3-digit material suffix. In many instances a part will be available in several materials. For example, a 1½ x 1 x 6 casing is offered both in 316 Stainless and Hastelloy-C. Use part number 3368-010 to order the part in 316 Stainless. Change the 3-digit material suffix to 020 to order the same part in Hastelloy-C. Other typical material designations are:

#### Alphabetical Sort Order

MATERIAL	CODE
18-8 Stainless Steel	060
303 Stainless Steel	015
316 SS / SiC / SiC / Chemraz	155
316 SS / SiC / SiC / EPDM	152
316 SS / SiC / SiC / Kalrez 1050LF	154
316 SS / SiC / SiC / Kalrez 4079	153
316 SS / SiC / SiC / Viton	151
316 Stainless Steel (316 SS)	010
440C Stainless Steel	011
Aluminum	070
Carbon (658 RCH)	120
Carbon Steel	050
Cast Iron	040
CD4MCu	030
Chemraz	255
Ductile Iron	190
EPDM - Sulfur Free	230
Graphoil	225
Hardened Steel	080
Hastelloy C276 (H-C)	020
H-C / SiC / SiC / Kalrez 4079	163
H-C / SiC / SiC / Viton	161
Kalrez 1050LF	241
Kalrez 4079	240
Miscellaneous	000
NdFeB / 316 SS	370
NdFeB / Carbon Steel	410
NdFeB / H-C	390
Neodymium Iron Boron	350
Samarium Cobalt	360
Silicon Carbide (SiC)	110
SmCo / 316 SS	380
SmCo / Carbon Steel	420
SmCo / H-C	400
Thermex	530
Titanium	290
Transformation-Toughened Zirconia (TTZ)	140
Virgin Teflon	210
Viton	220

#### Numerical Sort Order

MATERIAL	CODE
Miscellaneous	000
316 Stainless Steel (316 SS)	010
440C Stainless Steel	011
